GOT AN IDEA FOR A MOVIE?

TREATMENT SERVICES:

Even a brilliant idea for a movie is just that - **an idea**. An idea can't be protected, it can't be sold, and it can't be produced. What you *can* do, however, is turn that idea into a **treatment** - a specific kind of outline for your film - that has real commercial value.

I'll produce a 7-10 page treatment for your movie and get it registered with the industry-standard third-party agency that protects creators. Then you'll have a rock-solid concept you can pitch, turn into a script yourself, or hire a writer to do it for you.

SCRIPT DOCTOR SERVICES:

You've finished your first or fifteenth draft, but your script still might telegraph "amateur" to professional script readers. "Doctoring" involves a detailed analysis of your plot, story, dialogue, and characters, ensuring industry-standard formatting. I'll "punch up" your dialogue, suggest B stories for your characters, proofread for fatal errors, and get your script studio-ready.

\$500

SEVEN DAY SCREENWRITING INTENSIVE:

Hundreds of aspiring screenwriters have completed their first draft in just *ONE WEEK* by following this powerful, effective and proven program. Daily check-ins via phone or Skype*, and an average of one hour of writing per day, and you'll have that critical first draft finished and registered with the Writer's Guild for your protection.
